SHOW MEDIA PACK 2019

The regional event for media technology professionals, from micro content creators through to large scale broadcast.

GLASGOW

Science Centre, Pacific Quay - 14th May 2019

BRISTOL

University Officer Training Corps, Whiteladies Road - 16th May 2019

MANCHESTER

MediaCityUK, Salford Quays - 5th November 2019

Why the KitPlus Show?

The KitPlus Show means business! Whether it be an untapped customer base, a neglected region or an area of the UK you are focussing on we provide you the perfect platform to meet today's media professional.

Who?

You may know Matt and Simon, but did you know (and this may be hard to believe) they have spent their entire careers, a combined 60+ years, in the broadcast and pro video industry. Engineering, sales, online, publishing and events; they know the kit and they know the market. Who better to run a show from within the industry for the industry?

Why?

Our mission is to provide a cost effective, hassle free and well-timed event that exhibitors look forward to attending whilst at the same time offering visitors the chance to get hand's on with cutting edge technology and seminar sessions in their region. Simple.

What?

We like to keep it simple and smart. We provide everything you need (space, power, wifi, chairs & table, transport if required) with no hidden costs and with no expensive shell schemes you will find our tried and tested formula (since 2011) works very well. We never stop listening to feedback which enables us to continually create a better experience largely thanks to the input of the range of exhibitors our shows now attract.

When?

Post NAB and Post IBC is our target. Just enough time to get the latest, brand new kit releases back from Las Vegas & Amsterdam and about to hit the UK market, this normally means May and November.

Is that it?

Shows are increasingly becoming key networking events and the KitPlus Show is no different. With time being precious and travel often being avoided then the value of having the opportunities for a nerdy network session or sales meeting in the regions cannot be underestimated. Invite your customers to the show or use the time you are in their region to pay them a visit!

Glasgow

Tuesday May 14th

Perfectly timed after NAB the event is held at the popular Science Centre at Pacific Quay, just a stone's throw from the BBC and ITV and is well known in the region to all in the broadcast and pro video production community.

Bristol

Thursday May 16th

Following hot on the heels of Glasgow (with kit transport available between the two locations) the Bristol UOTC provides a flexible exhibition space with very easy access good local parking. Public transport from the city centre is regular and efficient, and the venue is right opposite the BBC facility at Whiteladies Road.

Manchester

Tuesday November 5th

MediaCityUK is right next to the BBC and ITV with over 300 production companies on site. Visitors don't just travel from within though, we have many regular and new industry professionals keen to see the latest technology, much of it shown for the first time in the UK after IBC launch, travelling from Scotland, Wales and surrounding cities such as Leeds, Bradford, Birmingham and of course Manchester.
